ORIGINS (610-721)

CE7884 • ISBN: 978-1-60572-741-7

Grades 9+ This is an account of the birth of Islam and a history of conquest stretching from Persia to Spain. For the conquered, what was their place in this empire? For the polytheists they had little choice but to convert, for the People Of The Book, Jews and Christians would be allowed to practice their religions, protected but restricted. 2014

THE PLACE OF THE OTHER (721-1789)

CE7885 • ISBN: 978-1-60572-742-4

Grades 9+ In the year 721, the Muslim Empire was vast. Across the empire Jews and Christians were minorities motivated by a desire to obtain the most favorable status. Their quest for an elevated status within the empire did not hinder cultural exchanges as can be determined with the House of Wisdom in Baghdad, nor prevent the occurrence in the 11th Century of the massacre of Jews in Granada and the persecution and forced conversion of Jews & Christians under the Almohads in the 12th Century. In the 15th Century, the Reconquista chased the Jews and Muslims from Spain which heralded the end of Al-Andalus. 2014

THE SEPARATION (1789-1945)

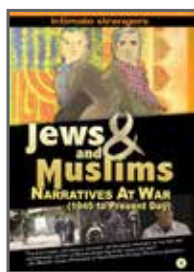

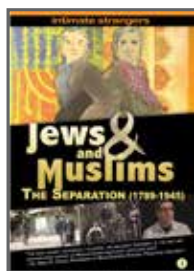

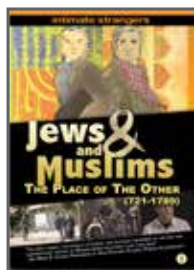

CE7886 • ISBN: 978-1-60572-743-1

Grades 9+ Turning to Europe: the French Revolution. Nation-states. The Jews, now European citizens, became the target of a more asserted anti-Semitism. But having incorporated the new national elites, they began to take a greater interest in the fate of the Jews in the Muslim world and to play the role of their protectors. Trapped between Zionism and Arabic nationalism, Palestine — called "Southern Syria" by the Ottomans — became the object of religious and political contention. 2014

NARRATIVES AT WAR (1945 TO PRESENT DAY)

CE7887 • ISBN: 978-1-60572-744-8

Grades 9+ In 1945, the world discovers the horror of the Nazi camps. In 1948, the birth of Israel aroused anger and bitterness among Arabs and Muslims, but triggered joy and exultation throughout the Jewish world. Hundreds of thousands of Palestinians were expelled or fled with the hope of a future return. In a few decades, the vast majority of Jews living in the Muslim world would leave Iraq, Egypt, Iran, Syria, Morocco and Tunisia. 2014

The program also discusses the importance of the "privileges and immunities" clause, the "commerce" clause and how the Supreme Court rulings throughout the years have shaped relationships between the federal and state governments.

CHAPTER 2. Incorporation Doctrine
This video explains that the Bill of Rights only applied to the federal government and that states were not obligated to uphold it. Students will learn that with "selective incorporation" the Court decides, case by case, which provisions of the Bill of Rights extend to the states.

With a cave rigged with inventions and contraptions for his day-to-day needs, the Grinch only sees his neighbors in Who-ville when he runs out of food. Each year at Christmas they disrupt his tranquil solitude with their increasingly bigger, brighter and louder celebrations. When the Whos declare they are going to make Christmas three times bigger this year, the Grinch realizes there is only one way for him to gain some peace and quiet: he must steal Christmas. To do so, he decides he will pose as Santa Claus on Christmas Eve, even going so far as to trap a lackadaisical misfit reindeer to pull his sleigh. Meanwhile, down in Who-ville, Cindy-Lou Who, a young girl overflowing with holiday cheer plots with her gang of friends to trap Santa Claus as he makes his Christmas Eve rounds so that she can thank him for help for her overworked single mother. As Christmas approaches, however, her good-natured scheme threatens to collide with the Grinch's more nefarious one. Will Cindy-Lou achieve her goal of finally meeting Santa Claus?
